

SIPSAW – School Improvement Plan for Student Achievement and Wellness

Goal:

- If we have a structured alternative recess program (e.g. intramurals/games room) focusing on belonging and social skill development, then we will observe an increase in “expected” behaviours amongst our students.

Plan:

- Students in grades 3-6 will have access to an intramural program which focuses on participation and skill acquisition.
- Students in JK-grade 6 will have access to a games room, as an alternative to recess program.
